Crazy Dates / Web App Prototype

Created a web app prototype for an app concept using React and Node.js.

Movie Database Website/ Web App Project

Made a web application using the MERN stack that displays a database of movies for the user.

Pedestrian Simulation/ VPython Project

Simulated pedestrians using gradient descent to guide pedestrians to a goal using VPython as a graphics library.

Awards

Panther Distinguished Scholar, Graduated Cum Laude

Experience

Papa Johns / Delivery Driver

August 2022 - January 2023, Melbourne, FL

Worked as part of a team to efficiently route and deliver orders. As a driver, acted as the main customer service representative for the store.

Panera / Line Staff

May 2021 - August 2021, Lithia, FL

Worked and communicated as a team in order to prioritize tasks based on various factors. Helped resolve issues any customer had.

FIT Rathskeller / Delivery Driver

February 2020 - February 2021, LOCATION

Took customers' orders and helped resolve any issues they had. Organized orders to fit our limited delivery space and time.
